
Sega Dreamcast Movie Creator 12 REPACK

Download

November 26, 2003 Someone correct me if I'm wrong, but the Sega Dreamcast Movie Creator is distributed with the Sega SDK, so we can't help you find it. ^^ In any case, even if you can find it, it may not work for you. At least this is my first experience with it and it is definitely a bit broken. I tried two different files and as a result I got a problem with .bin files. They didn't run on the Dreamcast and couldn't be changed, so I removed them. So far, I have not been able to get the Dreamcast to work with a .bin file, but I have managed to get it to work with a .gm file.
