Download .Q: Use old packages on play framework 2.0.3 I want to use old versions of a package but this package is not available in Maven Repository. If I use: "io.circe" %% "circe-core" % circeVersion It will download latest version of this package (2.1.1). Is there a way to use version 0.4.1 instead?

A: I would suggest to build a local jar with old version and use it. For example, I have circe-0.4.1.jar, which I could use like this: import io.circe.Json val json = Json.parse("""{"field1": "value1"}""").string Unfortunately, it seems that your circeVersion is 2.0.x, so you can not use this version. val *bm = b->base; unsigned int n = 16, k = n; int err = 0; for (; n >= 8; n -= 8, k += 8) { err = do_block_srst(b, k, n); if (err) return err; } for (; n; n--) { if (bm->bm0 & (1 < bm0 &= ~(1 < bm1 = 0; return 0; } b->data[off++] = bm->bm1; bm->bm1 >>= 1; if (++off >= bm->ot->len) return 0; } e79caf774b
